

# Interpreting Tabs

The 1<sup>st</sup> string (the one nearest your lap when you are playing) is the TOP string in Tab notation

The numbers indicate which string to pluck and which fret to stop. “0” means open

So you would read the Tab above as

String 2 open, string 1 open , string 2 fret 4, etc

The stems rising from the notes indicate the length of the note as normal in scores , but that’s a whole other story.....
